Using Computers For a Class at Your Office Location?

Consider **Deployable Laptops** Delivered Directly to Your Office

To support courses held at all USGS office locations, the Office of Employee Development (OED) offers a deployable laptop service.

A deployment includes:

- 11 student and one instructor laptop
- A high lumen PC screen projector
- 12 ethernet cords
- 2 extension cords
- 2 power supply strips
- All necessary ac adaptors
- Setup/configuration instructions

Our customers tell us: "Great equipment, ready to go, and no delay with improper setups, failed executions, or access problems"

It's simple, just open the box!

- Saves you and your staff time rounding up local office computers
- Saves your IT staff time needed to install base images on each computer
- Avoid glitches — our platforms are identical, so all software runs the same
- Our OED IT staff provides initial consulting and real time support
- Before shipping, each laptop is pre-loaded with your instructional software, eliminating the need to load and unload software on each computer processors, large screens and high memory capacity will support most class applications requiring computers.

Laptop Specifications (Minimum)

- Pentium M750 Processor
- 15.4" WXGA Display
- 1 Gb Memory or greater
- 60 Gb 5400 RPM HDD

- Internal/External Floppy Drive
- Internal 56K Modem
- Internal 16 port 10/100/1000 Netgear Switch
- 24X CDRW/DVD Combo Drive

Costs

The fee for USGS offices for a 12 laptop deployment for up to one week is $1,800 ($2,500 for DOI Agencies) including shipping. Offices in Alaska, Hawaii and Puerto Rico will incur additional shipping costs.
